Hand Operated Centrifuge Machine :

With RPM Meter and Protective Cover :Hand Operated Gerber Centrifuge Machine with Speed Indicator ,Brake,acid proof Plastic Clamps & Protective Cover for safe operation.The centrifuge is dynamically balanced and is available in 8,12 & 24 Tests

Hand Operated Centrifuge Machine :

Aluminium Die Cast :Hand Operated Gerber Centrifuge Machine with Aluminium die cast base & acid proof plastic clamps. The centrifuge is well dynamically balanced and is available in 8,12 & 24 Tests

JAPSON Dairy Products Catalog

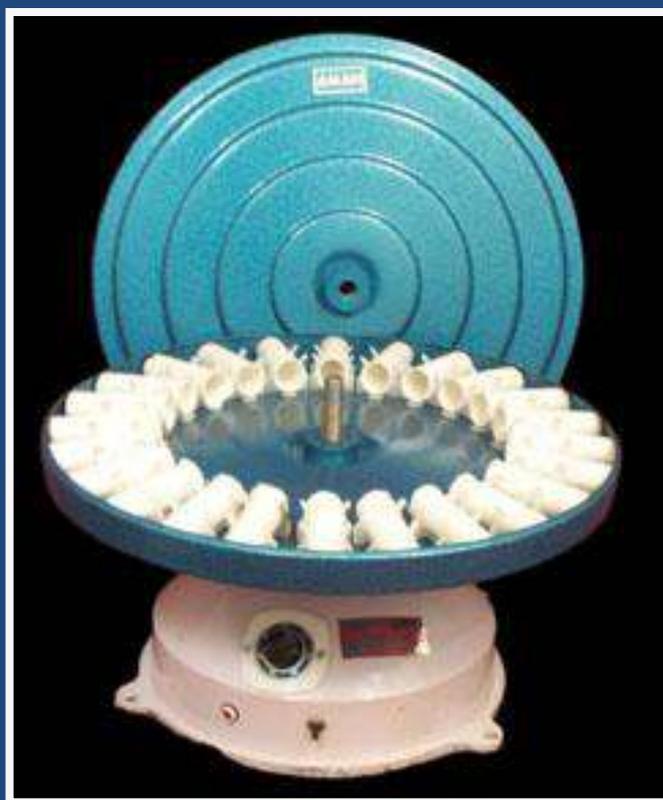

Hand Operated Centrifuge Machine Basic Model :

Hand Operated Gerber Centrifuge Machine Basic Model in Heavy Cast Iron base & acid proof plastic clamps. The centrifuge is well dynamically balanced and is available in 8,12 & 24 Tests

SUPER CENTRO :

Electrically Operated Gerber Centrifuge Machine fitted with Heavy duty Electric Motor housed in heavy cast iron body, Timer for 0-5 Min. & with Acid Proof Plastic Clamps. The centrifuge is dynamically balanced

JAPSON Dairy Products Catalog

NEW GENERATION CENTRIFUGE :

New Generation Centrifuge Machine Electrically operated with Angle Head, Brake, Auto Timer 0-5 Min. & Acrylic Cover for safe operation. The New Generation Centrifuge is available in 8 & 12 Tests. The centrifuge can also be used for Solubility Index

NEW GENERATION CENTRIFUGE D :

Electrically Operated with angle head, break, automatic timer and acrylic cover. Dual purpose centrifuge fat and solubility index.

JAPSON Dairy Products Catalog

SUPER CENTRO - VX :

Gerber Centrifuge Machine
Electrically operated with Brake, Auto
Timer 0-5 Min. , Acid Proof Plastic
Clamps & Extra housing cover for
safe operation. The Super Centro –
VX Centrifuge is available in 12 & 24
Tests

SUPER CENTRO - SVX :

Gerber Centrifuge Machine
Electrically operated with Brake, Auto
Timer 0-5 Min. Acid Proof clamps,
Extra housing cover and Top Disc
made from Stainless Steel 304 Food
Grade for safe operation .The Super
Centro – SVX Centrifuge is available
in 12 & 24 Tests

JAPSON Dairy Products Catalog

SUPER CENTRO - VX-R :

Gerber Centrifuge Machine
Electrically operated with Speed Indicator, Brake, Auto Timer 0-5 Min. Acid Proof clamps & Extra housing cover for safe operation .The Super Centro – VX-R Centrifuge is available in 12 & 24 Tests.

SUPER CENTRO - AX :

Gerber Centrifuge Machine
Electrically operated with Plexi Glass Transparent Cover, Brake,Auto Timer 0-5 Min.Acid Proof clamps, Speed Indicator and Auto Cut off in case the cover is lifted while in operation. The Super Centro-AX is available in 12 & 24 Tests

Joints and Reservoir capacity 500 ML.

Milk Can Plunger

Milk Can Plunger 36" X 6" Long Stainless Steel with Disc.

Milk Can Plunger 30" X 6" Long Stainless Steel with Disc.

Milk Can Plunger 36" X 6" Long Aluminium with Disc.

Milk Can Plunger 30" X 6" Long Aluminium with Disc.

Tanker Plunger Stainless Steel As per BIS Specifications.

JAPSON Dairy Products Catalog

Butter Churner Capacity 10 Litre Stainless Steel , Hand Driven, Barrel capacity 20 Litre, butter churning capacity 10 Litre with Input Output door, drain outlet, air discharge nipple and mounted on M.S.Stand.

The Electrical version is also available fitted with crompton motor and gear Box.

Butter Churner Capacity 20 Litre Stainless Steel, Hand Driven, Barrel Capacity 40 Litre, butter churning capacity 20 litre with Input Output door, drain outlet, air discharge nipple and mounted on M.S.Stand. The Electrical version is also available fitted with Compton motor and gear Box.(Butter Churner also available in Capacities 60,90,150,250 & 1000 Litres)

JAPSON Dairy Products Catalog

Aluminium Milk Cans as per IS :

64430 and are made from Piece monoblock design. These milk cans have sturdy handles & lid and are sure to last for a long Milk Cans are available in 05,10,15,20,30,40,50 & 60 Litres.

Milk Can made out of Stainless Steel 304 Food Grade Sheet, The Specifications are as per National Dairy Development Board.

JAPSON Dairy Products Catalog

Plastic Milk cans are having smooth surface, string bottom with special ribs, Hygenoc, Made under One Piece, Rust Free, Light Weight, Economical, Long Lasting, Easy to clean, Double Layered, Strong and sturdy. Available in 20 & 40 Litres.

S.S. Milk Cans. From 2 Litre to 10 Litres.

Easy to use, handy Stainless Steel Milk Cans from Capacity 2 Litres to 10 Litres.

The Milk Cans are made from S.S.304 Food Grade.

JAPSON Dairy Products Catalog

Khoa Machine Diesel Operated, Capacity 100 Litres, prepares khoa of 25 Litres of Milk in 30 Minutes and consumes 3 Litre of Diesel. Motor 1 H.P.. The Volume of container is 100 Litres and is made of Stainless Steel.
(Khoa Machine of different capacities can be fabricated as per customer's requirement

Cream Separator RS-7 (60 Litre Per Hour) & RS-8 (100 Litre Per Hour) hand operated and Electrically operated)

Cream Separator RS-7 Hand operated 60 Litre Per Hour, Bowl Disc, Top Disc & Float made of Stainless Steel with Tools, spares and dynamically balanced bowl.
Cream Separator RS-8 Hand operated 100 Litre Per Hour, Bowl Disc, Top Disc & Float made of Stainless Steel with Tools, spares and dynamically balanced bowl.

JAPSON Dairy Products Catalog

Cream Separator RS-9 (165 Litre Per Hour), RS-11 (300 Litre Per Hour) & RS-13 (550 Litre Per Hour)

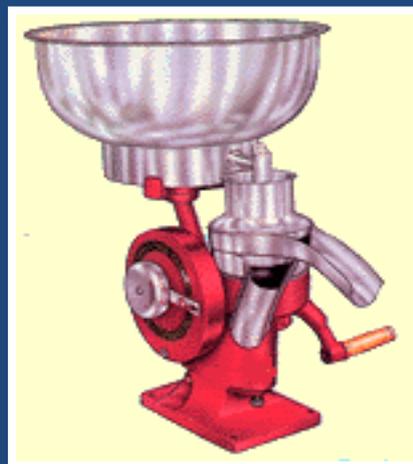

Cream Separator RS-9 Hand Operated 165 Litre Per Hour, with all milk collection parts except the bowl, made of Stainless Steel. with tools, spares and dynamically balanced bowl. The Cream Separator RS-9 Electrical version is also available fitted with an Electric Attachment with Auto Speed Control Device & Heavy Base Plate.

Cream Separator RS-13 Hand Operated 300 Litre Per Hour, with all milk collection parts except the bowl, made of Stainless Steel. with tools, spares and dynamically balanced bowl. The Cream Separator RS-11 Electrical version is also available fitted with an Electric Attachment with Auto Speed Control Device & Heavy Base Plate.

Cream Separator RS-13 Electrically Operated 560 Litre Per Hour, with all milk collection parts made of Stainless Steel. with tools, spares and dynamically balanced bowl

Cream Separator 750 LPH

All Electrical Cream Separator Capacity 750 Litre Per Hour(Alfa Model), All Milk contacting parts made of Stainless Steel.

JAPSONS is a company established in 1946 and dedicated to the field Scientific, Laboratory, School, Education, Dairy, Hospital and Analytical Equipments.

We are an ISO 9001:2008 Certified and D&B Accredited Company.

It is one of the first company to cater to Schools, Colleges, Universities and Research Laboratories in local markets of India and then to institutions in the South-East Asian markets. After early Eighties the customer base extended all across the globe and Jambu Pershad and Sons was awarded International Tender Contracts in Phillippines, Oman, Uganda, Sudan, Ethiopia, kuwait, Yemen, Jordan, kenya, iraq (UN Oil of Food program), Zambia, Ghana, Sri Lanka and Carribean. All the contracts have been successfully executed and completed to full satisfaction of respective Ministries of Education, united Nation bodies, World Banks projects and Asian Development Bank. Other than global contracts, JAPSON has a wide dealer network in all parts of globe including Major parts of Africa, Asia, Middle-East, Europe and Caribbean resulting in healthy relationship with every market.

Since Nineties JAPSON with its growing team of Engineers, Science Graduates and Diploma Holders have forayed into the field of Analytical and Research Equipments. We at JAPSON work towards understanding the End customer needs and providing the complete solution for Universities, Industry, Research and Analytical Laboratories. JAPSON through its manufacturing facilities, Sister-concerns and tie-ups with reputed suppliers offer quality products that ensure precision working and accurate results.

This booklet is an aim at presenting our most popular products in the domain of Diary Equipments. Our range is very wide and we aim to cater all your needs to the best of our abilities.
